## TECH

With years of interdisciplinary engineering that spans over a multitude of brands and activities, K2 Ice proudly integrates K2 ingenuity and technology in each skate within the collection.

### SoftBoot Technology

K2’s patented SoftBoot™ technology offers the stability of a stiff boot in a lighter and more comfortable fit.

### BOA Closure System

BOA® Closure System gives skaters the ability to fine-tune their fit with the ease of a dial.

### Speed Lacing

The K2 Speed Lacing System is a single-pull lacing system designed for ease of use for simple comfort.

### Thinsulate Liners

The fibers in Thinsulate liniers trap more warm air in less space keeping the cold out and the warm in.

### Junior Cuff

Maximum support for young skaters, this confidence-building cuff helps your little one master the ice.

### Stability Plus Cuff

The Stability Plus Cuff offers the recreational ice skater a level of support that is sure to build confidence and control for all skating abilities and secure an enjoyable experience for all.
